EDUCATION

Om Kothari Institute of Management and Research

Bachelor of Computer Application

Kota, India

2022 – 2025

12th Grade

PCM – 94.2%

Kota, India

2020 – 2021

PROJECTS

UpNotes / React , Material UI

- Build a simple and interactive note-taking web application using React.
- Implemented functionality for users to add and delete notes dynamically.
- Designed a clean and user-friendly interface for managing notes efficiently.
- Ensured responsiveness and optimized layout for both desktop and mobile views.

The Gallery/ Next.js, Tailwind CSS, API

- Built an interactive photo gallery app using Next.js and Tailwind CSS for modern, responsive design.
- Integrated with the JSON Placeholder API to allow users to add photos dynamically and paginate through the gallery.
- Implemented key features such as image optimization and lazy loading to enhance performance and user experience.
- Check it out on GitHub: [Link](#)

The Advisor / RESTful API, Node JS, Express JS

- Developed a backend using Node JS and Express JS to retrieve random advice from a third-party API.
- Created API routes for handling requests from the frontend.
- Fetched and processed advice data from the external API.
- Implemented frontend event handling to display random advice upon user interaction.
- Check it out on GitHub: [Link](#)

TECHNICAL SKILLS
